Endorsement for Motor Carrier Policies of Insurance for Public Liability
under Sections 29 and 30 of the Motor Carrier Act of 1980

FORM MCS-90

Issued to ROBBIE D. WOOD, INC. of DOLOMITE, AL 35061
(Motor Carrier name) (Motor Carrier state or province)

Dated at HARTFORD, CT on this 1ST day of MARCH, 2026

Amending Policy Number: 83 UEN OH7030 Effective Date: 03/01/2026

Name of Insurance Company: HARTFORD FIRE INSURANCE COMPANY

Countersigned by: Susan L. Castaneda
(authorized company representative)

The policy to which this endorsement is attached provides primary or excess insurance, as indicated for the limits shown (check only one):

- ☒ This insurance is primary and the company shall not be liable for amounts in excess of \$ 2,000,000 for each accident.
- ☐ This insurance is excess and the company shall not be liable for amounts in excess of \$ _____ for each accident in excess of the underlying limit of \$ _____ for each accident.

Whenever required by the Federal Motor Carrier Safety Administration (FMCSA), the company agrees to furnish the FMCSA a duplicate of said policy and all its endorsements. The company also agrees, upon telephone request by an authorized representative of the FMCSA, to verify that the policy is in force as of a particular date. The telephone number to call is: (860) 547-5000

Cancellation of this endorsement may be effected by the company or the insured by giving (1) thirty-five (35) days notice in writing to the other party (said 35 days notice to commence from the date the notice is mailed, proof of mailing shall be sufficient proof of notice), and (2) if the insured is subject to the FMCSA's registration requirements under 49 U.S.C. 13901, by providing thirty (30) days notice to the FMCSA (said 30 days notice to commence from the date the notice is received by the FMCSA at its office in Washington, DC).

Filings must be transmitted online via the Internet at <https://portal.fmcsa.dot.gov/UrsRegistrationWizard/>.

DEFINITIONS AS USED IN THIS ENDORSEMENT

Accident includes continuous or repeated exposure to conditions or which results in bodily injury, property damage, or environmental damage which the insured neither expected nor intended.

Motor Vehicle means a land vehicle, machine, truck, tractor, trailer, or semitrailer propelled or drawn by mechanical power and used on a highway for transporting property, or any combination thereof.

Bodily Injury means injury to the body, sickness, or disease to any person, including death resulting from any of these.

Property Damage means damage to or loss of use of tangible property.

The insurance policy to which this endorsement is attached provides automobile liability insurance and is amended to assure compliance by the insured, within the limits stated herein, as a motor carrier of property, with Sections 29 and 30 of the Motor Carrier Act of 1980 and the rules and regulations of the Federal Motor Carrier Safety Administration (FMCSA).

In consideration of the premium stated in the policy to which this endorsement is attached, the insurer (the company) agrees to pay, within the limits of liability described herein, any final judgment recovered against the insured for public liability resulting from negligence in the operation, maintenance or use of motor vehicles subject to the financial responsibility requirements of Sections 29 and 30 of the Motor Carrier Act of 1980 regardless of whether or not each motor vehicle is specifically described in the policy and whether or not such negligence occurs on any route or in any territory authorized to be served by the insured or elsewhere. Such insurance as is afforded, for public liability, does not apply to injury to or death of the insured's employees while engaged in the course of their employment, or property transported by the insured, designated as cargo. It is understood and agreed that no condition, provision, stipulation, or limitation contained in the policy, this endorsement, or any other endorsement thereon,

Environmental Restoration means restitution for the loss, damage, or destruction of natural resources arising out of the accidental discharge, dispersal, release or escape into or upon the land, atmosphere, watercourse, or body of water, of any commodity transported by a motor carrier. This shall include the cost of removal and the cost of necessary measures taken to minimize or mitigate damage to human health, the natural environment, fish, shellfish, and wildlife.

Public Liability means liability for bodily injury, property damage, and environmental restoration.

or violation thereof, shall relieve the company from liability or from the payment of any final judgment, within the limits of liability herein described, irrespective of the financial condition, insolvency or bankruptcy of the insured.

However, all terms, conditions, and limitations in the policy to which the endorsement is attached shall remain in full force and effect as binding between the insured and the company. The insured agrees to reimburse the company for any payment made by the company on account of any accident, claim, or suit involving a breach of the terms of the policy, and for any payment that the company would not have been obligated to make under the provisions of the policy except for the agreement contained in this endorsement.

It is further understood and agreed that, upon failure of the company to pay any final judgment recovered against the insured as provided herein, the judgment creditor may maintain an action in any court of competent jurisdiction against the company to compel such payment.

The limits of the company's liability for the amounts prescribed in this endorsement apply separately to each accident and any payment under the policy because of anyone accident shall not operate to reduce the liability of the company for the payment of final judgments resulting from any other accident.

Driver Training Process

Our driver training program consists of multiple phases to ensure every driver is properly prepared before operating on behalf of Robbie D. Wood, Inc.

Prior to attending orientation, each driver is required to complete approximately **8 hours of online training**. This training covers essential topics including Hazardous Materials (HazMat), Hours of Service (HOS), defensive and safe driving practices, and other regulatory and safety-related subjects.

After successfully completing the online training, drivers attend a **three-day, in-person orientation**. During orientation, they receive comprehensive instruction on company safety policies and procedures, customer-specific requirements, and applicable FMCSA and DOT rules and regulations. All drivers are also trained in the proper selection, use, and maintenance of required Personal Protective Equipment (PPE).

Upon successful completion of orientation, drivers are assigned to their respective locations and job duties. Depending on the specific customer, equipment, or services they will provide, many drivers receive additional hands-on and job-specific training before they begin working independently. This may include specialized operating procedures, customer site requirements, equipment operation, loading and unloading procedures, emergency response expectations, and any other training necessary to safely perform their assigned responsibilities. This multi-phase training process helps ensure our drivers are knowledgeable, compliant with applicable regulations, and prepared to perform their duties safely and effectively.

Countersigned by: _____

Mary Claire Hoff
(authorized company representative)

The policy to which this endorsement is attached provides primary or excess insurance, as indicated for the limits shown (check only one):

- ☐ This insurance is primary and the company shall not be liable for amounts in excess of \$ _____ for each accident.
- ☒ This insurance is excess and the company shall not be liable for amounts in excess of \$ 5,000,000.00 for each accident in excess of the underlying limit of \$ 2,000,000.00 for each accident.

Whenever required by the Federal Motor Carrier Safety Administration (FMCSA), the company agrees to furnish the FMCSA a duplicate of said policy and all its endorsements. The company also agrees, upon telephone request by an authorized representative of the FMCSA, to verify that the policy is in force as of a particular date. The telephone number to call is: 410-472-6490.

Cancellation of this endorsement may be effected by the company or the insured by giving (1) thirty-five (35) days notice in writing to the other party (said 35 days notice to commence from the date the notice is mailed, proof of mailing shall be sufficient proof of notice), and (2) if the insured is subject to the FMCSA's registration requirements under 49 U.S.C. 13901, by providing thirty (30) days notice to the FMCSA (said 30 days notice to commence from the date the notice is received by the FMCSA at its office in Washington, DC).

DEFINITIONS AS USED IN THIS ENDORSEMENT

Accident includes continuous or repeated exposure to conditions or which results in bodily injury, property damage, or environmental damage which the insured neither expected nor intended.

Motor Vehicle means a land vehicle, machine, truck, tractor, trailer, or semitrailer propelled or drawn by mechanical power and used on a highway for transporting property, or any combination thereof.

Bodily Injury means injury to the body, sickness, or disease to any person, including death resulting from any of these.

Property Damage means damage to or loss of use of tangible property.

Environmental Restoration means restitution for the loss, damage, or destruction of natural resources arising out of the accidental discharge, dispersal, release or escape into or upon the land, atmosphere, watercourse, or body of water, of any commodity transported by a motor carrier. This shall include the cost of removal and the cost of necessary measures taken to minimize or mitigate damage to human health, the natural environment, fish, shellfish, and wildlife.

Public Liability means liability for bodily injury, property damage, and environmental restoration.

The insurance policy to which this endorsement is attached provides automobile liability insurance and is amended to assure compliance by the insured, within the limits stated herein, as a motor carrier of property, with Sections 29 and 30 of the Motor Carrier Act of 1980 and the rules and regulations of the Federal Motor Carrier Safety Administration (FMCSA).

In consideration of the premium stated in the policy to which this endorsement is attached, the insurer (the company) agrees to pay, within the limits of liability described herein, any final judgment recovered against the insured for public liability resulting from negligence in the operation, maintenance or use of motor vehicles subject to the financial responsibility requirements of Sections 29 and 30 of the Motor Carrier Act of 1980 regardless of whether or not each motor vehicle is specifically described in the policy and whether or not such negligence occurs on any route or in any territory authorized to be served by the insured or elsewhere. Such insurance as is afforded, for public liability, does not apply to injury to or death of the insured's employees while engaged in the course of their employment, or property transported by the insured, designated as cargo. It is understood and agreed that no condition, provision, stipulation, or limitation contained in the policy, this endorsement, or any other endorsement thereon,

or violation thereof, shall relieve the company from liability or from the payment of any final judgment, within the limits of liability herein described, irrespective of the financial condition, insolvency or bankruptcy of the insured. However, all terms, conditions, and limitations in the policy to which the endorsement is attached shall remain in full force and effect as binding between the insured and the company. The insured agrees to reimburse the company for any payment made by the company on account of any accident, claim, or suit involving a breach of the terms of the policy, and for any payment that the company would not have been obligated to make under the provisions of the policy except for the agreement contained in this endorsement.

It is further understood and agreed that, upon failure of the company to pay any final judgment recovered against the insured as provided herein, the judgment creditor may maintain an action in any court of competent jurisdiction against the company to compel such payment.

The limits of the company's liability for the amounts prescribed in this endorsement apply separately to each accident and any payment under the policy because of anyone accident shall not operate to reduce the liability of the company for the payment of final judgments resulting from any other accident.

IMPORTANT NOTICE

The Delaware Department of Natural Resources and Environmental Control (DNREC) Compliance and Permitting Section (CAPS) is dedicated to overseeing the waste transportation permit process. We carefully receive, review, and provide comments regarding submitted permit applications, requiring a complete application prior to public notice. It is important for transporters submitting applications to DNREC-CAPS to understand that all permit applications will now be publicly accessible during the required 15-day public notice period and are also subject to release under DNREC's Freedom of Information Act (FOIA) afterward.

To improve transparency, DNREC now publishes legal notices on its website that include the names of transporters applying for permits, along with convenient links to the original permit applications. This approach is designed to promote open communication and build public trust.

Before releasing each permit application, DNREC-CAPS ensures that all personally identifiable information (PII)—such as driver names, birthdates, and Social Security numbers—is properly redacted.

Transporters who wish to keep other certain information in their permit applications confidential—excluding personally identifiable information (PII) which is being redacted—must explicitly request confidentiality when they submit their original application. This request must comply with DNREC's Freedom of Information Act (FOIA) regulations. For detailed policies and procedures regarding confidentiality requests, refer to 8 DE Admin. Code § 900, titled *Policies and Procedures Regarding FOIA Requests*.

Please note that any request to hold specific information as confidential must be made in writing at the time you submit your original waste transporter application to DNREC-CAPS. Your request must include a justification for why the information should be kept confidential, as required by Subsections 6.2.1 through 6.2.4 of the *Policies and Procedures Regarding FOIA Requests*.

Additionally, if you are making a confidentiality claim, you are required to submit two applications: the original waste transporter permit application and a second version of the original application that redacts the information you wish to keep confidential.

We appreciate your cooperation in this matter.

REPORTING SPILLS

WHEN CALLING IN TO REPORT A SPILL YOU WILL NEED THE FOLLOWING INFORMATION. (PLEASE HAVE THE SHIPPING PAPERS WITH YOU.)

- YOUR EXACT LOCATION AND PHONE NUMBER
- NAME OF THE PRODUCT AND SHIPPER
- HAZARD CLASS
- PLACARD APPLIED TO TRAILER (IF APPLICABLE)
- IS PRODUCT A HAZARDOUS SUBSTANCE (RQ)?
- DID ANY OF THE SPILL ENTER ANY WATER?
- IS THERE ANY NEARBY WATER?
- AMOUNT SPILLED
- TYPE OF AREA (CITY/COUNTRY/CROWDED/ISOLATED)
- INJURIES OR DEATHS
- ESTIMATE OF DAMAGE TO PROPERTY
- WEATHER CONDITION

EMERGENCY SPILL PROCEDURES

ALL HAZARDOUS MATERIAL SPILLS OR LEAKS, REGARDLESS OF THE AMOUNT, MUST BE REPORTED TO THE DISPATCHER AND/OR JAMES TILLMAN AS SOON AS POSSIBLE. SPECIFY WHEN CALLING THAT YOU HAVE A HAZARDOUS MATERIALS SPILL. **DO NOT MOVE A TRAILER WITH LEAKING MATERIALS.**

SHOULD A SPILL OCCUR WHILE THE DRIVER IS ENROUTE, THE DRIVER'S IMMEDIATE RESPONSIBILITIES ARE:

- CONTACT THE COMPANY SAFETY DEPARTMENT IMMEDIATELY

Containment- After notifying local fire and/or police departments and proper company personnel, the driver should make an attempt to contain the spilled waste to the best of their ability. Containment efforts are to keep spilled from water sources and soil.

1. Use any available resource to contain the spill by constructing a temporary barrier. Use absorbent material carried in vehicles where practical. If the spill is too large to be contained by absorbent material, use dirt or any other available materials to construct the temporary barrier. The driver should make every attempt to prevent the spilled waste from spreading.
2. If the source of the spill is from drummed waste the driver should plug or tape the leaking drum. If necessary the driver should turn the leaking drum upside down.
3. If the shipping description is known (refer to the manifest) find the name in your Emergency Response Guidebook in the blue pages and turn to the corresponding guide number (orange top page land 1/3 of book).
4. If the shipping description is not known check the placard on the vehicle for a "UN" or "NA" number, look up the number in the yellow pages IN YOUR EMERGENCY RESPONSE GUIDEBOOK, and refer to the corresponding guide number.

Clean-up - Driver having contained the spill to the best of his/her ability, cleanup is the next step. Drivers will cooperate with Clean-up Company to help decontaminate the area. Clean-up Company will be responsible for the following:

1. Putting down and cleaning up any commercial absorbent such as oil dry, corn cob, fly-ash or other compatible inert material THAT will be used to absorb the spilled material sealing the container and disposing of excess material according to Federal Regulations.

2. Clean-up company will be responsible for seeing that all samples are analyzed by a qualified laboratory and is done in accordance with EPA, DOT AND Federal Regulations and all clean-up and disposal is in accordance with these regulations.
3. Follow-up Procedures - once the immediate emergency aspects of the spill have been taken care of the following steps will be performed.
 1. Notification to the National Response Center and Director of the Office of Hazardous Material Regulations, Material Transportation Bureau, Department of Transportation, Washington, D.C. must be notified in the event of :
 - A. A person is killed or requires hospitalization due to injuries.
 - B. Carrier or property damage exceeds \$50,000.
 - C. Accident/Spill involves radioactive materials or etiological agents.
 - D. Notification caused by continuing danger to life.
 2. Written Notification Requirements: To the Federal DOT which specify that a copy of the notice will be submitted to the Alabama Department of Environmental Management, P.O. Box 301463, Montgomery, Alabama 36130-1463.
The Department's physical address is 1400 Coliseum Blvd., Montgomery, AL 36110.

Equipment will be decontaminated in the following manner:

1. Decontamination – a tractor or trailer exposed to a spill or leak will be decontaminated at the site in order to prevent any further release and so that the vehicle can be transported or move under its own power) to an authorized facility capable of further decontamination if necessary.
2. Notification – the Department of Transportation, Director of Hazardous Materials Regulation, Materials and Transportation Bureau, Washington, DC 20590 will be notified, in writing of the occurrence and nature of the incident and a copy will be submitted to the Alabama Department of Environmental Management, 1751 Federal Drive, Montgomery, AL 36130.

Qualified Emergency Response Contractors:

See attached list of Emergency Response Contractors

Emergency Equipment- Each tractor carries the following emergency equipment.

1. Qualcomm Communication Devices are in all trucks
2. All trucks have a fully equipped first aid kit containing eyewash.
3. All drivers are required to carry a flashlight as part of their emergency response equipment.
4. All drivers are issued the following:
 - Gloves, safety glasses, hard hat, protective clothing, respirator

5. All trucks have the following:

- DOT Emergency Response Guidebook, ten pound ABC fire extinguisher, emergency reflective triangles, shovel.
- Spill kits containing booms and absorbent pads shovel, oil dry absorbent, plastic sheets, and clean-up storage bag are carried in all vehicles.
- Salvage drums containing booms, pads, and oil dry absorbent are carried on van trailer.

Safety equipment is tested and maintained to assure proper operation in time of emergency. After an emergency, all equipment is either decontaminated for future use or discarded with the load.

Training Program - In preparation for handling hazardous materials and hazardous waste, all drivers are given 24 hours of classroom training as required by OSHA 29 CFR 1910.120, 49 CFR PART 172 subpart h and part 177 as well as HM 232. All personnel are given an 8 hour refresher course to update them on current regulation.

The training familiarizes the driver with the types of materials hauled by Robbie D. Wood, Inc. and the corresponding safety and/or health hazards involved. Pursuant to that information, instruction is given in the proper use of personal safety equipment and the types of safety equipment to be used with each particular material or waste.

Spill prevention is stressed through the use of safe driving habits and, LOAD SECUREMENT, in the case of dump trailer or roll-off operation, use of rubber gasket tailgate seals and lock-down safety bolts. In the event of a spill, drivers are instructed to follow the reporting procedures on page one of this plan and the following:

1. Keep unauthorized persons away from the scene
2. Keep open flames away
3. Prevent migration of spilled materials through the use of absorbent in the case of liquid wastes and damming or dike solid material using the shovel carried in each vehicle.
4. Advise safety officials of all details of the situation.
5. Insure you don your PPE before attempting to resolve spill

Use of emergency equipment is explained and demonstrated to stress protection of the driver through the use of personal safety gear, as well as protection of the public and the environment through the use of other emergency equipment listed under the Emergency Equipment section.

The DOT Emergency Response Guidebook is reviewed so that the employee will be familiar with it in an emergency situation.
