The Permittee, Delaware Recyclable Products, Inc., was represented by Jeremy W. Homer, Esquire.

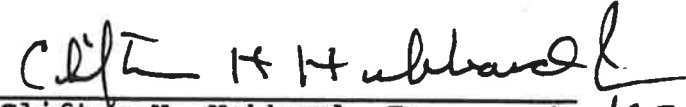

SUMMARY OF THE EVIDENCE

Mr. Trincia indicated that the Minquadale Civic Association had appealed because it did not believe it was properly notified of the underlying application, for modification of the Permit SW-90103. The Permit concerned operation and closure of a portion of Permittee's landfill located in the Minquadale area. DNREC indicated that it published notice of the permit modification in two newspapers in accordance with chapter 60

CONCLUSION

This appeal was resolved when DNREC agreed to send copies of all legal advertisements concerning the landfill operated by Permittee to the individuals identified in Exhibit "A." The Board unanimously approves this agreement.
