Comments:

I agree with Tony Scarpa of Keep Our Wells Clean. I live in the same community as Tony. We live just south of the Clean Delaware Spray Irrigation Fields outside Milton. Coliform bacteria has already been detected in at least one of our neighbor's well water. Yet Clean Delaware is seeking to amend its spray irrigation permit to spray on MORE farmland outside Milton. This can only increase the potential for contamination of private wells in our community. Hence, I strongly oppose ANY spraying of wastewater by Clean Delaware on its fields outside Milton. Regards, Steve Palaszewski
