DNREC to Host Public Hearing on Diamond State Port Corp.'s Proposed Container Port on Sept. 29

Department of Natural Resources and Environmental Control | Division of Climate, Coastal, & Energy | Division of Waste and Hazardous Substances | Division of Water

Date Posted: Friday, September 18, 2020

The Department of Natural Resources and Environmental Control will hold a virtual public hearing Tuesday, Sept. 29 on a proposal from the Diamond State Port Corporation (DSPC) to construct a new container port on the Delaware River at the DSPC property at 4600 Hay Road, Edgemoor, New Castle County.

The proposed container port project will require permits from both DNREC's Division of Water and the Division of Waste of Hazardous Substances, as well as a Federal Consistency Certification from the Delaware Coastal Management Program within DNREC's Division of Climate, Coastal and Energy, all of which will be presented for public comment in the Sept. 29 hearing.

The public may comment in writing prior to the hearing, or comment live during the virtual hearing, or submit written comments following the hearing until November 1, 2020.

Written comments may be submitted online, via email or mail from now until Nov. 1. Written comments are made available to the public on the hearing website as they are received.

Members of the public who wish to comment live during the virtual hearing must pre-register with the Department online or by phone no later than noon on Tuesday, Sept. 29. Live comments will be transcribed and will be publicly available soon after the hearing.

All comments receive equal weight. All comments will be reviewed by the hearing officer as she makes her recommendations on all pending matters associated with this proposed project to DNREC Secretary Shawn Garvin. Comments will also be reviewed by the Secretary as he makes a final decision on the applications. No recommendations or decisions on any matters currently pending before the Department are made at the time of the hearing.

All documentation and information about the proposed project and links to the upcoming hearing, including instructions on how to join, pre-register, and/or submit comments, may be reviewed at https://de.gov/portproject.

About DNREC

The Delaware Department of Natural Resources and Environmental Control protects and manages the state's natural resources, protects public health, provides outdoor recreational opportunities and educates Delawareans about the environment. The Division of Climate, Coastal and Energy uses science, education, policy development and incentives to address Delaware's climate, energy and coastal challenges. The Division of Waste and Hazardous Substances ensures Delaware's wastes are managed to protect human life, health, safety and the environment. The Division of Water manages and protects Delaware's water resources. For more information, visit the website and connect with DNREC on Facebook, Twitter or LinkedIn.
