To all whom this concerns:

Since it was originally announced, I have been following the development of Delaware's "Port Expansion Initiative" with great interest because of the economically transformative impact that it will have in Delaware.

As a concerned citizen for the best interests of Delaware, I am therefore writing this email in support of the International Longshoremen's Association (ILA) and the Diamond State Port Corporation (DSPC) to be allowed to proceed with the planned container cargo port at the Edgemoor site.

This project which is an essential component of the "Port Expansion Initiative" will contribute to the necessary growth of Delaware's shipping industry, while boosting future employment opportunities for the people of Delaware, particularly young people who are in critical need of jobs.

Please therefore consider this matter urgent, especially since this is a project that we citizens were already assured that its groundbreaking was confirmed.
