Comments:

Docket #2020-P-MULTI-0024 (Port Project) This project must be stopped on basis of a serious threat to our national security. Gulftainer's Iraqi-born principals, Hamid Dhia Jafar and Dr Jafar Dhia Jafar, have been (for decades) involved in the financing, construction, designing, storage, transportation, concealment and proliferation of nuclear, chemical, and biological weapons of mass destruction. These very same weapons have wounded and killed our very own American soldiers and many innocent citizens. Gulftainer also has extensive ties to the former Iraqi regime of Saddam Hussein, Hussein's project of weapons of mass destruction co-conspirators the Jafars, Iraqi chemical weapons mastermind Czar Lt. Gen. Dr. Amir Al-Saadi, Putin's long time "number 2" man who was a former KGB officer Igor Sechin, and many, many others who are deeply connected with adversary countries to the United States including Russia. Russia's Club-K looks identical to any standar intermodal cargo container, which is used frequently in our ports. The Club-K is an advanced satellite-activated weapons system capable of alunching Russican Kalibr cruise missiles armed with nuclear, electromagnetic Pulse (EMP), chemical, biological, and conventional paloads. This Club-K is capable of wiping out an aircraft carrier 200 miles away. This port would be an access point to allow a "trojan horse" container near our coast and just one launch of an EMP attack from a Club-K would disable America's power grid and impede our ability to respond with an retaliatory strike. They could then continue launches with likely targets such as U.S. Navy submarine bases in Kitsap, Washington, and Kings Bay, Georgia, U.S. Air Force strategic bomber air bases, command and control bases, and the Boeing E4B airborne command 747s, military bases such as the Delaware's Dover Air Force Vase and Major American cities such as Philadelphia, New York City, and Washington D.C. Lastly, Gulftainer is connected to 100% of the countries listed by the U.S. State Department as State Sponsors of Terrorism, North Korea, Iran, Sudan, and Syria. There can be nothing good from allowing this to pass and Gulftainer to have access to our coasts. Keep our country secure and please do not allow known terrorists to come near. For the future of our country and the future of our children please reject this.
