Comments:

This project is a major national security risk. I am just a woman who reads, I read enough and understand enough that I know we should not be allowing foreign entities controlling any of our ports. We must guard our ports against threats both foreign and sadly, lately, domestic. This project was started by people (Obama, HRC, etc) who do not have the good of America in mind, they are one world order globalists who want to destroy our country. Gultainer is a foreign-owned seaport management company connected to Iraqi WMDs, Iran, Russia, China and Russia's Club-K container missile system. It should be blocked from building a cargo container terminal in Edgemoor, Delaware, as part of a Port of Wilmington expansion. Please do not allow this to continue.
