Organization: Adjacent property owner

### Comments:

I am in full agreement for the proposed dredging project that Mr. and Mrs Bolduc are applying for this permit, under the following conditions: 1. That according to Droney Marine, as long as the dredging is limited to 10 ft distance from both my bulkheads, no pilings will be needed to support the bulkheads (phone conversation). 2. I've attached an email, that I would like entered into the record on why I withdrew my support of this project last November 13,2019. It was due to Mr Bolduc intentionally mowing and blowing grass and leaves directly into the canal, as if he had a motive. That motive, I believe was to make the canal bottom appear so bad, since a depth survey was to be conducted by DNREC for this permit, is the only reason I now can understand. The email to Evelyn Maurmeyer, Julie Molina, and others, clearly stated WHY I was withdrawing my previous approval of this dredge project; whereas, during the live hearing on May 15, 2020, Evelyn Maurmeyer, stated that my withdrawal was made but NO REASON WAS GIVEN. That was an incorrect statement. The reason for my withdrawal as stated above and in the email attached, was because of the intentional "dumping" of leaves and grass into the canal. People who do this, should not live on the water. It is much different that the wind blowing debris into the canal tidal waters. I ask the Secretary of DNREC to consider an ordinance to fine residents who intentionally use a blower or mower or other means to get rid of their grass and leaves into tidal waters. Proof would have to be in the form of several eye witnesses and or a video of the violation. I also find burnt wood from barb-ques/fires that people throw into the canal, and other residents throwing cut weeds directly into the canal(witnessed by John Stewart, former neighbor). Thank you for your time and consideration. William J. Winkler Sr.

Subject: Former Proposed Canal Dredging project at Holly Terrace/Bulldoc  
To: Evelyn Maurmeyer <maurmeye@udel.edu>, "Molina, Julie (DNREC)" <Julie.Molina@state.de.us>, Edward Whereat <whereat@udel.edu>, "Gerald.Hocker" <Gerald.Hocker@state.de.us>

I am formally withdrawing my approval for the proposed canal dredging project at Holly Terrace by Mr Bolduc.

For someone who wants to deepen the canal for his boat, Mr Bolduc continues to blow leaves and grass into the canal when he cuts the grass or uses his blower. Today, Nov 7, 2019, I would estimate about 3 bushels were intentionally blown into the canal with his mower and blower.

I have taken photos before and complained but according to Dr. Whereat, there is no law or regulation against blowing leaves and grass into a canal.

I am now video taping each time that I see Mr Bolduc, to turn over this practice to DNREC enforcement and Senator Hocker, which may prompt regulations or law of intentionally "dumping" into a Delaware body of tidal waters.

Sincerely, William J. Winkler Sr.
