Comments:

This comment is regarding a pier installation at 204 Salisbury Street in Dewey Beach, DE. Please be advised that we operate a busy water sports concession from the Bay Resort Motel which shares the water with this property. We have thousands of paddlers enjoying this scenic area between Memorial Day and the end of September. The installation of a pier is super noisy and would interrupt our business during the summer season, not to mention, the peacefulness that hotel guests expect as well as neighbors. 2 years ago, a pier was installed during the summer (we were not notified) and the noise levels were very disruptive to our paddle board yoga sessions. If a pier is to be installed, please could it be constructed between October 2020 and May 2021. Thank you.
