To whom it may concern:

I am writing this letter in support of our family and the desire for us to have a dock. My family (4 children and 4 grandchildren) love to boat and spend time out on the water. We have been discussing applying for a dock permit for years, and I am so happy that we finally have. We take care of our property and the environment, and I know that our dock will not have a detrimental impact on Herring Creek.

Thank you for your consideration of the dock permit. I firmly believe that it is within our rights to obtain one; everyone else on the Creek has one as well.
