

Additional Information/Comments related to Docket #2021-P-W=0006 – Matthew Eisenmann

June 1, 2021

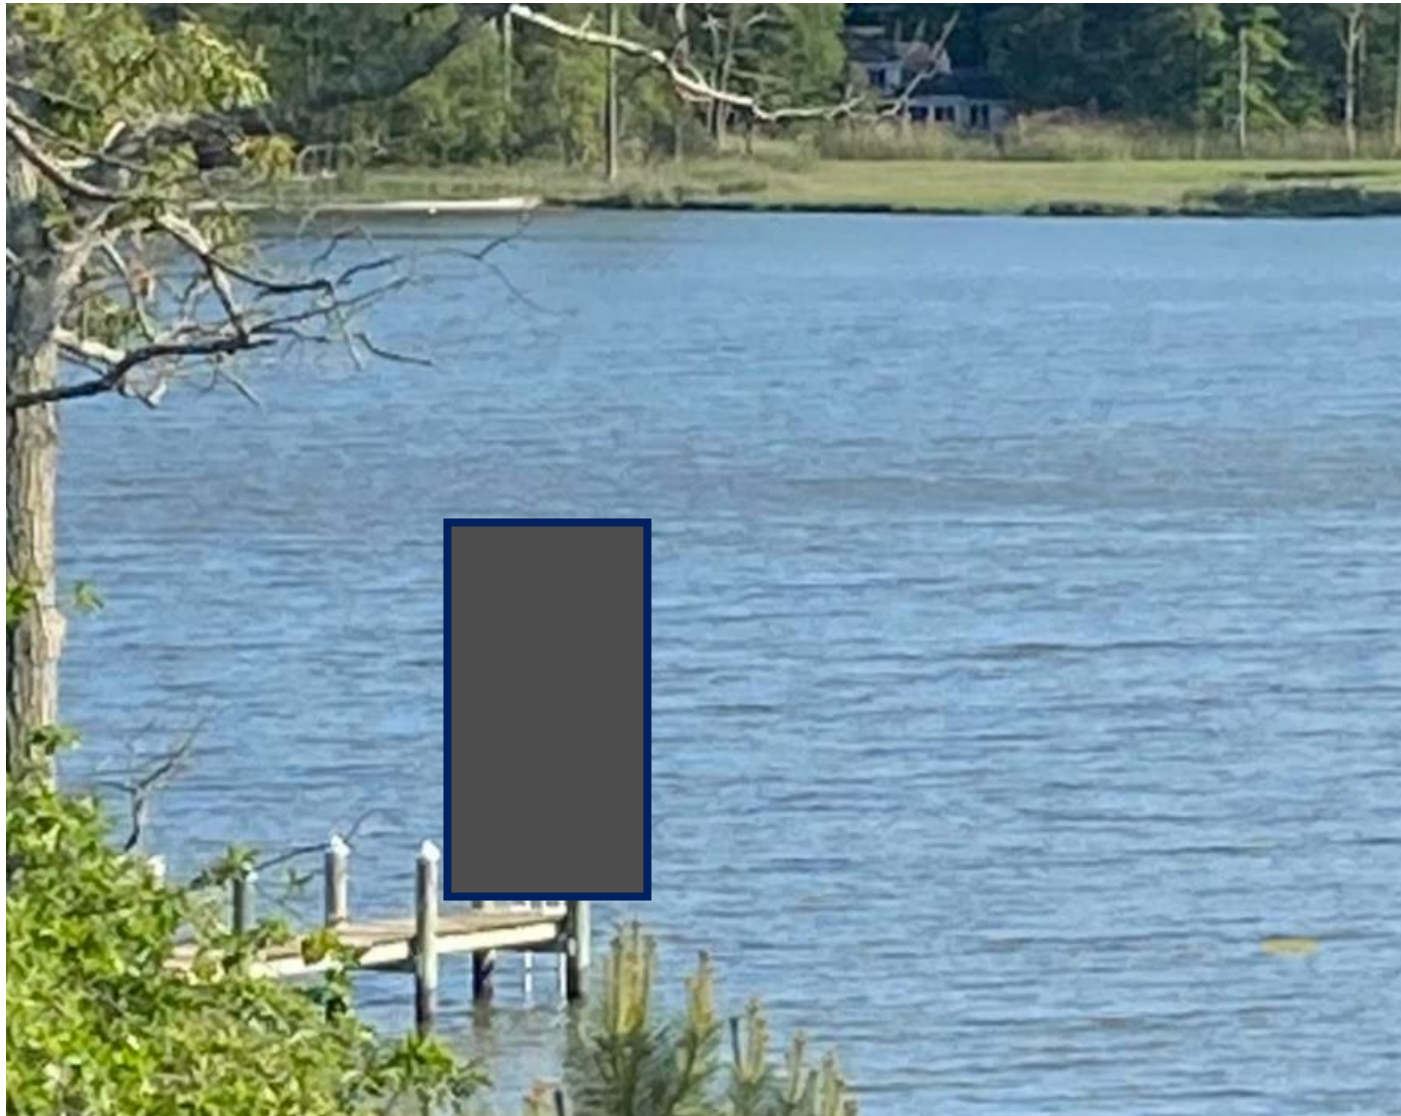

Thank you for the opportunity to comment.

In addition to our correspondence dated May 13 and comments shared during the public hearing objecting to the Eisenmann pier extension and boat lift request, the subsequent slides show what our view is currently (slide 2) and an approximation of what our view would look like should the request be approved (slide 3). It is clear any extension of the current pier would obstruct a significant portion of our water view and reduce the enjoyment and value of our property.

Sincerely,  
John Eklund  
23917 Sunny Cove Ct.  
Lewes, DE

Current View from Rear of Eklund Home

Approximate View from Rear of Eklund Home if Pier Extension and Boat Lift are Approved Resulting in Significant Reduction in Water View
