I would like to comment on the proposed changes to the cove on Herring Creek. The proposed changes to the existing dock are much too big and an even greater intrusion into the wetlands. The increase in size in the dock is huge compared to any existing dock in our area and would also disturb the fish and wildlife in that are. Only a commercial operation would need a dock that size. The proposed dock would be big enough to dock up to 3 or 4 boats. This proposal in its current form is certainly not wise for the local environment. Please consider scaling down this proposal. Thank you, James Barry 23745 Herring Reach Ct. , Lewes, DE 19958
