My comments are as follows:

We object to the project # 20 - these changes will have a negative impact on the environment - including the wild life and aquatic life of the wet lands in the creek. We feel that it will change the peacefulness of our property (for which we purchased). We feel that the changes will impact our property values <sup>(negatively)</sup>, especially, if the proposed changes should lead to a commercial use - we are not Rehoboth Beach. Thank you.
