Email Address: lcm226@att.net

Organization: No

### Comments:

We strongly object to the proposed projects because they will negatively impact the environment, the wildlife on the wetlands and the aquatic life in the bay or Herring River. In addition, the proposed projects will impact our peaceful quiet enjoyment of our property and it will negatively impact our property value. Any hearing should also inquire about commercial use of the projects. Another concern I have is that this proposal—project #23 is the same as project #20 and we have been asked to submit comments again. Aren't our original comments/objections still on record? Feels like a slight of hand is happening here.
