State Street Commons, Suite 6A
100 W. Water St.
Dover DE 19904

I hereby request a public hearing regarding Highline Warren's request for expansion of their process at 1 Crowell Rd. Wilmington DE 19804.

Some of my concerns are as follows:

- Increase in the number of storage tanks of dangerous liquids in my neighborhood;
- Increase in VOC's released into my neighborhood although they claim it will be less; (only due to different calculations)
- Increase to approx. 11.2 million gals a year of Methanol, Propylene Glycol, and Ethanol coming through my neighborhood in tanker trucks daily 24/7/365;
- Increase to approx. 27.260 million gals a year of finished product coming through my neighborhood in trucks daily 24/7/365;
- Increase of an unknown number of trucks coming through my neighborhood delivering consumables to the plant;

Thank you,
Bill Lane,
Along with my wife Jackie, daughter Sierra and grandson John Lane
