Please note that while this request increases raw material throughput, if the permit modification is approved, permitted emissions will actually decrease due to updated calculation methodologies.

The applications for these permits may be reviewed upon request. The applications are posted at <https://de.gov/dnrec/notifications>. To submit comments, for additional information or for information regarding how you can inspect the application, please contact Tracy Mattson at (302) 739-9402.

A public hearing on any of the above applications will NOT be held unless the Secretary of DNREC receives a request for a hearing regarding that application within 15 days from the date of this notice, ending August 1, 2022. A request for a hearing shall be in writing. The request must also show a familiarity with the applications and a reasoned statement of the permit's probable impact.
