Comments on Docket #2022-P-MULTI-0012: Bioenergy Innovation Center

Name: Rev. Dr. Lyle J. Dykstra

Phone: 302-383-7445

Email Address: dykstralyle@gmail.com

Organization: Member of the Coordinating Committee Delaware Poor People's Campaign

Comments:

Please DO NOT place the proposed Biogas Development Co's new refinery near a residential neighborhood. The proposed location in Seaford is only about 2,000 feet (half-mile) from the refinery. It is immoral to have refinery that will leak methane, ammonia, hydrogen sulfide, and nitrogen oxide near children. Also, methane is a green house gas that is 25 times more powerful than carbon in warming our environment. Put this refinery, if approved, far away from where people live. Wherever this plant may be placed do not fail to monitor it thoroughly and constantly. Get the chicken industry to help pay for the monitoring cost of keeping our environment and residents safe and healthy.
