Dear Gov. Carney and Sec. Garvin,

Unless you are prepared to live next to this proposed Biogas creation site, please vote NO to it. You know the statistics on what will really happen to the land and surrounding areas and it is not good. Take into consideration that now is the time to STOP letting Delaware be a dumping ground and that there is no way to effectively "manage" an operation like this in a residential community.

Delaware deserves better than the BioEnergy Devco proposal and we can work together to find better, less damaging ways to serve the needs of Delawareans.

Thank you.
