Organization: First and Central Presbyterian Church, Wilmington and the Delaware Chapter of the Poor People's Campaign

Comments:

The proposed location for the methane refinery is only one-half mile from a mobile home park. It is immoral to accept children playing near a methane gas production plant that will leak methane as well as ammonia, hydrogen sulfide and nitrogen oxide. We can and must do better for the youngest and most vulnerable among us. If approved, DNREC and the State of Delaware move this methane refinery to an industrial zoned area, away from vulnerable families and children. This will protect all families and provide the necessary resources to address potential fires and chemical exposure accidents should they occur. Thank you
