Comments on Docket #2022-P-MULTI-0012: Bioenergy Innovation Center

Name: John King

Phone: 302-629-4173

Email Address: 254jk@comcast.net

Organization: No

Comments:

Please approve these permit applications. It is a good idea to process these the chicken litter and other waste from CAFO operations, as proposed, into useful compost and biogas. The farm fields are taking too much chicken litter as fertilizer and the nitrogen and phosphorus coming from those fields is poluting our waterways. Like it or not, "Big Chicken" is here to stay. The flaky outsider Food and Water Watch group does not speak for local environmental-minded folks like me.
