Organization:

### Comments:

It is difficult for me to understand why the state of Delaware would not want to ensure clean water for its residents and for the people who have enjoyed traveling to your historic and beautiful state. Modern, proven wastewater facilities are a necessary for basic for life. Why would you support a permit that would not provide safe water for the people you are working to protect? Help safeguard your people and your state. Ensure the safety and the return of the millions of visitors who enjoy Delaware. Please, do the right thing and deny this Inland Bays permit. Thank you.
