to Hans v

Hans,

Do you have access to the Piney Neck Wastewater Facility design document? The pit in the woods behind it may be a chlorine contact chamber. However, I'd like to see that in the documentation stating so.

Thank you,

Don

Don,

6:59 AM (7 hours ago)

The pond in the woods in not associated with the operation of the plant. I cliked the contact chamber in the attached picture. I also attached the construction drawings.

Regards, Hans
