My brother lives in the impacted area. The behavior of Mountaire Farms in Delaware is appalling. The local and state government's unwillingness to effectively deal with these criminals is even more disturbing. Mountaire continues to ignore the laws, with utter disregard for the health of your citizens. It's was a beautiful area. It now just represents greed, corruption, and pollution. I've kept up with the news articles on this story, not that I need them to see what is going on there. I see what it is doing to my brother, his family, and his neighbors. I once visited Millsboro regularly, but rarely do now. I tell others to avoid it too. Please be the government of the people. It's good for us, it's good for you, it's good for Delaware. I'm pro capitalism, but I recognize that rigorous governance is a critical component. Tourism and a healthy citizenry are keys to your growth, not some filthy lawless corporation.
