To: HearingComments, DNREC (MailBox Resources) &lt;DNRECHearingComments@delaware.gov&gt;

We need:

- **Modern waste facilities that can handle the explosive population growth.**
- **Systems that can't be gamed by Mountaire Farms or anyone else.**
- **Systems that don't pollute as a fallback mechanism.**
- **Systems that are proven to work. Not "Research and Demonstration projects.**
- **Public officials who do not lie on the public record and give a false sense of security to the public.**
- **The current facility to be fixed immediately.**
- **A government that doesn't hide dangerous broken utilities from the public who are sick and dying.**
- **Accountability**
