Docket: #2022-P-W-0008 - Inland Bays Regional Wastewater Facility

Regarding the FAILED Inland Bays Regional Wastewater Facility...

SHAME! SHAME! SHAME! SHAME! SHAME! SHAME! SHAME!

The government knows it has been broken since 2010 and knows a corporation committed a major environmental crime there and in another location as well **and still hasn't alerted the public?** See the attached list of 370 investigative journalists. Maybe they should all know too and inform their readers?

SHAME! SHAME! SHAME! SHAME! SHAME! SHAME! SHAME!

Any of the folks involved with this are NASTY! I used to visit your state. Not any more. I'm telling everyone I know to stay away. I got in that disgusting sewage water.

How much of that 🤢🤢🤢 **DOMESTIC WASTE** FECAL COLIFORM BACTERIA 🤢🤢🤢 from Mountaire Farms' BROKEN factory did they contaminate the wells with at the BROKEN human waste treatment facility?

This is the MOST DISGUSTING CRIME EVER!!!!

I heard a bunch of poor minorities are affected. Why am I not surprised?!

I sure hope someone fixes that BROKEN FACTORY so the next FLOOD doesn't spread a bunch of 🤢🤢🤢 **DOMESTIC WASTE** FECAL COLIFORM BACTERIA 🤢🤢🤢 on more poor minorities.

SHAME! SHAME! SHAME! SHAME! SHAME! SHAME! SHAME!

Clean it up! **ALL OF IT!**

And while you're at it, tell Todd Lawson and Hans Medlarz that the public really, really, really hate being **LIED TO!**

Also tell Hans that next year he should report problems like he is supposed to instead of telling people he can't stop POISONING them or other people won't be able to flush their toilets.

Did you know that wind blows outside of the boundary of farms? I saw the photograph of all of that WASTEWATER blowing across the road. I live in another state THANK GOD. We don't use spray for fields because there are peoples homes everywhere.

Get a grip. Do triage on the broken wastewater facility and install a new one that isn't broken and can't ever poison anyone's water and air.

With No Regards as you have had none for human life.

-Wanda
