Comments:

As a citizen of Delaware I am appalled that our representative will not be able to vote on the matter of the Delaware Electric Car Mandate as Governor Carny dictates. I oppose this mandate as the requirements will inflict undue financial burdens on the public, the infrastructure isn't ready for an all electric vehicle system, removes the right to choose what type of vehicle the public can purchase when fully implemented. Further more the disposal of spent batteries will be an environmental disaster and the production of securing the minerals to produce the batteries has a terrible impact on the sites where they are mined. Please do not implement the Governor Carny's executive order.
