Comments:

I am against the Delaware Electric Car Mandate. I believe in continued freedom to choose a car of my choice. The state has no right to mandate my freedom of choice. Our reps and senators are being denied their right to represent their constituents by voting on this bill. Carney has NO right to push through this bill without a vote! Further more, the science does not support the reasoning behind this mandate. I say YES to our freedom of choice, and NO to this mandate.
