Comments:

After review of the proposed regulations, this program is unnecessary and not feasible. A matter of such great impact on the residents of DE should be VOTED on by legislators. It should Not be MANDATED by the Governor and implemented by non elected individual(s). Why in the world would DE follow California's lead on this topic or any other?! This sure feels like it's being rammed through without tje general publics' knowledge or consent. The townhall held on 3/29/23 at Camden Firehall was a packed house crowd resounding in opposition to the EV Mandate and, if my feeling is correct was a small slice of Delaware's MAJORITY constituency. We urge you to STRONGLY reconsider moving forward on this senseless initiative. Sincerely, Gary Stewart
