Comments:

Dear DNREC - I am opposed to the EV mandate for three reasons. 1. A Governor mandate is weak leadership and not representative government by the people. Citizens should have a voice - we pay for it. 2. The data supporting this measure is inconclusive and therefore leads one to believe the mandate is politically driven or there is financial gain for parties involved. 3. EV vehicles are expensive. The added cost to purchase an EV vehicle will be beyond the majority income in the state. The state of Delaware cannot even develop and support proper bike access let alone EV stations. Please proceed with caution before the tax payers of Delaware are burdened with another obligation they did not vote for. Respectfully Dr. Ray Ott, LtCol (Ret)
