Comments:

The hearing notice states ""Section 177 of the Clean Air Act requires that Delaware standards must be "identical to the California standards." But it appears that Section 177 of the Clean Air Act authorizes other States to choose to adopt California's standards in lieu of federal requirements. So Delaware could choose to adopt the federal standards, they are not 'required' to adopt the California Standards, and this should be clarified. The loss of gas tax revenue on the Transportation Trust Fund should be addressed and the regulations should not be adopted without a solution to the issues that they will cause.
