Comments:

At a minimum, do not by pass the legislature by handing this off to DNREC to implement. Put it to a VOTE and let our state representatives do their jobs and implement new and reasonable legislation. I believe the Governor knows it won't pass as written, so he has by-passed the system. Issuing an executive order for a mandate is acting like a sleazy, green, used car salesman. So sad, because as an independent, I gave Gov. Carney credit for having common sense and not going too far left. He supported our police and made a few common sense decisions during the pandemic. But this mandate is simply pandering to the far left. I don't want to be told what type of vehicle I'm "allowed" to purchase. Let free markets work. I SAY NO TO THE DELAWARE ELECTRIC CAR MANDATE.
