Comments:

I am writing to oppose the state mandate for electric vehicles. Delaware nor the rest of the US is prepared to handle the amount of charging stations that would be required. Plus I am on a fixed income and could not afford to purchase an electric car. Please understand I am VERY opposed to the State trying to force people to buy and drive electric automobiles. We live in the United States of America where we have rights as taxpayers and citizens. The State of Delaware would violate the public's rights to mandate what we can buy or drive.
