Comments:

Dear Governor Carney, I am 100% against the proposed vehicle mandate and believe we should let the free market work. There are many other reasons we should not mandate EVs but enriching the Communist Chinese who seem to have the market on rare earth minerals cornered, especially since President Biden has placed rare earth mining in the US off limits, is another critical reason. This industry would have failed already if there were no Federal rebate program which, cannot possibly be continued due to our \$31 trillion debt. Thank you Paul V LePore Middletown, DE
