Comments:

Stop trying to mandate everyone in Delaware to have to buy an electric vehicle.. As free loving Americans we can't stand being told we have to purchase electrical vehicle by 2030. I for one would change rather move out of Delaware than be told I have to purchase something I don't want or need. This seems to be all in the name of Climate change. This theory has been debunked over and over again. Stop acting like Russia and China.
