

*Mailed
4/5/23*

To Theresa Newmen, hearing officer,
c/o DNREC, Office of the Secretary
89 Kings Highway
Dover, De. 19901

Dear Theresa,

I wish to protest the Advanced Clean Car II regulations.

Reasons:

1. Very expensive to own an electric car.
2. Have to install a plug in unit in your garage. Also expensive.
3. Electric has gone up considerably and this will only add to that.
4. All electric vehicles will put up the price on unleaded gasoline beyond affordability.
5. There are a lot of poor people in Delaware, this will not help them.
6. Bus service is not available in rural areas.

Thankyou for considering this protest.
