Comments:

I am strongly in favor of the Low Emission Vehicle Program provisions. It is imperative that Delaware decrease tail pipe emissions as soon as possible. More residents using electric vehicles will make a good start in improving our air. The air quality in our state is poor. Unfortunately, we still have to contend with all of the out-of-state traffic using gas powered vehicles, so if Delaware residents could go electric, we will at least have some impact. My family has 2 cars - one fully electric vehicle and one hybrid. They are both great cars and I would urge the adoption of the 2022-R-A-0011. Thank you.
