Organization: Yes! Citizens of the Great State of Delaware!

Comments:

Why is this administration putting the horse ahead of the cart!! Build the cars and sometime in the future The Carney Crew will install affordable charging stations where all citizens will have the ability to charge their cars in a safe and secure location! How much incentive money will the state be providing to citizens for installation of chargers at their homes? Car dealers will be provided state incentive money to entice citizens to purchase their cars. This whole mandate needs to be digested by the citizens of our state prior to implementation. What is the hurry??
