Comments:

The electric car mandate is not a good choice. There are so many reasons why consideration of this mandate should be aborted. One that is very close to my heart is noted. When my parents were alive, I would be needed to respond to emergency situations as soon as I got a call my dad was having a stroke, my mom fell, etc. I would have been devastated and my parents would have been left without my care, if I was not able to jump in my car and get to them because I had to charge my car.
