I can not afford an EV. My family's income was devastated by the fake covid crisis and lockdowns. I want to be able to travel and enjoy life, not be forced into slavery by the Delaware govt. EV's are to track and trace us. They are to keep us controlled so that we don't go anywhere without government permission . I am sick of this crap. The govt is purposely destroying our lives. Pollution comes from corporations and the government . Not from people driving cars. Unless you are going to pay for my EV, pay for my electricity and pay for the costly battery replacement I am against this stupid mandate. STAY OUT OF MY LIFE. EVs are against my religious beliefs. Will you allow people to opt out through religious exemptions? I do not want to be forced to own another thing that is made by slave labor. You forced cellphones upon us. Now EVs? Men women and children die and are buried in the mineral mines. They are enslaved and tortured. The EARTH is raped and ravaged to get these minerals yet we have to be forced into this crap? EVs contribute to destruction of the earth as rainforests and other parts of nature are wrecked to dig for the minerals. People are killed. Slavery is used. So it's against my religious beliefs. It is inhumane, unethical, immoral and violates the 10 commandments. It is NOT environmentally friendly. It is a scam. To enslave the public. Please be sure there are people willing to sue the government to have you buy the car, pay all the electric and the upkeep. You have corporations mandate jabs that killed people. When is this crap going to stop. You are sick and disgusting and WE DIDNT VOTE FOR YOU SO BACK OFF.
