Comments:

Government mandares always raise the cost to the consumer of whatever is being mandated versus letting a free market and competition keep prices down. Considering the fact that there is no known time frame for infrastucture support, please do NOT impose any mandates on E/V. Furthermore, the Insurancw Institute says auto insurance cost will escalate at least by 300% and home insurance for E/V owners willl escalate 400% due to fire risk from charging batteries. PLEASE DO NOT MANDATE ANY FORM OF E/V USE!
