Comments:

As citizens we want freedom to choose whatever vehicle we want, not mandated to electric. Condos do not have outlets. So far I haven't had a disruption of electricity unless someone hits a pole, whereas my sister has had her electric out for a week or more several times. I see no plans for a nuclear plant to provide this excessive use of power nor how these vehicles are going to pay for the power they use or the roads they drive on. This is totally unfair to the residents of DE who are already burdened with taxes.
