I thought only the Legislative branch could make laws. Am I wrong about that ? Under what authority does DNREC think it can mandate a proposal like this ? Even Governor Carney can not make this a mandate; Unless he declares a state of emergency. If he were to declare a state of emergency, will the state employees get their proper pay for working during a state of emergency ? I don't want my taxes to be raised, but I'll through out a suggestion. How about the state start by turning all of its vehicles into electric vehicles ?!?! Or hybrid vehicles ? The state doesn't have the infrastucture to handle their own 1000's of vehicles. How do they expect 'common' people to do this ?
