Comments:

I am not against EV's. I am against Freedom of Choice. If you want to buy a Mercedes, you don't want to be told you have to buy a Volkswagon. Pushing EV's on the Delaware population is the same thing. Only Socialist countries tell their people what they can and cannot have. We are not a Socialist country. We do not want to be a Socialist country. We want Freedom of Choice. Let EV's evolve in a true free market environment. When the electric grid is able to handle millions of EV's on top of all the other electric needs, then the market will evolve.
