Tthere is not a single documented statement of proof that earth built gases are causing climate change. Political gases are evident in massive quantities, but are only effective generally in creating irreversible financial foul ups. We will not be EV ready in 2035 and possibly never. I suggest you not put this program in place because it is governmentally dictatorial and it ignores the financial laws of supply and demand Secondly, any Governor following the leadership of a California Gov. needs to sit back and seriously look at his decision making capability
