Comments:

Stop this mandate nonsense. Delaware citizens elect public officials who represent our choices, in a democratic manner. That has been the rule since DE was recognized as the First State. Non elected officials or agencies do not have the authority to push mandates on the public. Nor does John "lockdown" Carney have the authority to impose vehicle mandates on the residents of DE. The push of this docket on the people of DE needs to be discarded, we have NOT voted on this disgusting mandate, a mandate that would push undue hardship on most of the people who reside and vote in Delaware. This is not a Communist state and it should never become one !!!
