Organization: No

Comments:

Please reconsider your stance on electric vehicles. I agree that we need to make changes in our lives to help this planet survive for our future generations. However, the proposed EV mandate is way too drastic. It will cripple those of us that are not rich. We will not be able to afford electric vehicles. Nor will we be able to afford goods and services that are moved and supplied by the industries forced to use electric vehicles. I feel this will be a HUGE detriment to our state and life in Delaware as we know it. So, again, please reconsider this mandate. Or at least phase things in over a much longer period of time. Sincerely, Nancy Jackson
