Dear DNREC Public Comments,

I support the Advanced Clean Cars 2 Program for Delaware! We need to do something about the air pollution in our state and in our country! Climate change is real and we need to take action NOW to preserve the quality of life for our next generations. Clean cars can be a big part of that and we want local dealers to have them available. Let's be bold and take action to help save our planet!

Sincerely,

Sally Barclay
