Comments:

Caveat: Sorry, I just sent this email and realized I wrote the wrong Article number of the DE Constitution. It is Article 2 section 1. To Governor Carney and Secretary of DNREC: Dear Sirs, Delaware Constitution Article 2 section 1 states: § 1. General Assembly to hold legislative power; composition. Section 1. The legislative power of this State shall be vested in a General Assembly, which shall consist of a Senate and House of Representatives. "The" Webster's 1828 Dictionary definition: "The" sets forth that only the Legislature has the authority to write laws and that authority is not transferable to the other branches. Thus, any DE Code of regulation permitting such a transfer is nullified. Shall be vested is a command not a suggestion. Henceforth, DNREC does not have the power to legislate nor can this legislative power be transferred to another branch of government. The function of DNREC is to monitor the laws/standards as set forth by The General Assembly. The function of the Secretary of DNREC is not to create law. Mandates are laws. In Addition: The State of Delaware is not California! They are geographically diverse states. California is 7,882% larger than Delaware. Meanwhile, the population of Delaware is ~897,934 people (36.4 million more people live in California. They are also diverse states related to climate. 1. FW: 1,200 Scientists and Professionals Declare: "There is No Climate Emergency" • <https://dailysceptic.org/2022/08/18/1200-scientists-and-professionals-declare-there-is-no-climate-emergency/> 2. This video illustrates a panel of regulators that do not have even a basic understanding of what they are regulating. Currently 0.04% is amount of CO2. Anything less than 0.03% plant life starts dying off.

https://media.gab.com/system/media_attachments/files/135/376/943/playable/73ed5f9c94161e62.mp4 In summary, DNREC does not have the authority to mandate. This must be done by the General Assembly and hence establishing their vote on record. And, There is No Climate Emergency as proven by 1,200 Scientists and Professionals. Sincerely, Shirley Wiley Sussex County
