To: HearingComments, DNREC (MailBox Resources)

Dear DNREC Public Comments,

I support the Advanced Clean Cars 2 Program for Delaware!

I want cleaner air for health reasons.

I want reduced greenhouse gas emissions for survival reasons.

I want EVs available in Delaware dealerships so Delawareans reap the benefits of the transition away from gas cars to electric vehicles.

I want a gradual ramp up of EVs so we can have a smooth and orderly transition, not a chaotic scramble when it becomes clear and undeniable what's happening worldwide. Ex. GM already committed to selling only clean cars as of 2035. UK by 2030, EU committed to clean cars by 2035. Canada the same by 2035. China, Japan and many others, all moving to clean cars.

Sincerely,

Jamie Irwin
