DNREC
Office of the Secretary

Negative to being told
What Kind of vehicle to buy.

Cannot wait to see all these
electric powered vehicles
sitting along the road waiting
to be charged.

Will our wacky president
have an electric powered
AIR FORCE one as he likes to use
it to fly all over?

PS: a family member HAD a new
elec vehicle - went on vacation & was
afraid of not being able to return home.
They now have a gas powered, more
dependable car. *Jayne Jarrell*
